The DIMMER VIEW

by Max Goodwin

Keep Money, Not Travelers, Home

Let's back up our President in his urgings to spend less money overseas.

He wants the cutback to reverse our balance of payments deficit. We suggest that we quit sending millions of dollars of foreign aid to those unappreciative nations — nations which ridicule us and low rate us in the eyes of the world.

President Johnson's approach for the cutback, however, is to cutback American travel on the continent and a reduction of foreign investment by Americans.

According to Representative Sherman P. Lloyd of Utah, there are many better ways than putting harsh restrictions on overseas travel and foreign investment.

One, he suggests, is for LBJ to invoke the Taft-Hartley Act in the 17-month-old western states copper strike which has boosted copper imports from a pre-strike level of 10,000 tons a month to 60,000 tons today.

American dollars go to pay for this commodity.

Another citizen opines "Surely there are bottomless wells of spending within our government which could be better restricted and promote sounder economy than travel sanctions."

Teachers' Strike Looms

The threat of a teachers' strike in the Grossmont Union High School District is not based on realistic demands.

With a median income of \$10,000 a year, American Federation of Teachers spokesmen are demanding that trustees call an override election for the high school district and use the proceeds to pay higher salaries.

It is too easy for most tax payers to compare their incomes with what is already being paid high school teachers and they would rebel at the issue — if it is for pay increases only.

On what basis voters would support a high school override tax is not easy to discern. But any voter can take a pencil and project eight months of on-the-job work (nine months less holidays and other closed school days) to equal \$15,000 a year. The on-the-job work is six, rather than eight hours, too. Another 25 percent can be added for that. That brings a projected pay to nearly \$20,000 based on hours worked.

However, this is not the real subject of this piece; inflation may make a \$20,000 a year wage the median in a few months. We were attracted to the wage demand through another nice teachers' may avail themselves of — the sabbatical.

The sabbatical is available to teachers so that "educational benefits would accrue to the district and to the teacher."

The district pays 50 per cent of the teacher's salary during the sabbatical year leave and usually benefit is accrued to the district. — as it should since the district pays \$5,000. At present four percent of the staff is permitted sabbatical leave. It costs the district \$70,000 a year for this professional nicety.

Whether the board of trustees were seriously considering expanding the sabbatical program, we have no way of knowing.

But we know that consideration came to a screeching halt when the board examined the request of a teacher who asked for the year off with \$5,000 in district funds in her pocket to go to the Olympic games in Mexico. The screeching didn't last long and the halting was soon overcome.

At the next meeting the Board approved the request and the taxpayer is now footing the bill for a chick to spend the summer in Mexico City. Even a sports writer has it tougher than that!

The Bedroom and the Buck

You'd never associate the inflationary spiral with what goes on in the presidential bedroom, would you?

According to a widely publicized story, which was never refuted, the gold platform on which U. S. currency is based, was decided in President Franklin D. Roosevelt's bedroom. More about that few paragraphs later, but a quick look at today's presidential bedroom produces some startling revelations.

It has not been many months ago that Lynda Bird crept into daddy's bed in the late evening and whispered — "I'm engaged."

There is no evidence to suggest that any lieutenant crept into bed with President General Eisenhower to discuss the conduct of Korean War I, but Art Buchwald, in the current issue of NEWSWEEK, has a hilarious expose on how he viewed the revelation to President Johnson that the Pueblo had been captured.

Buchwald suggested that LBJ was informed of the event so late because no one wanted to take the rap for giving the President bad news. The Secretary of Defense, and the head of CIA finally agreed that Walt Rostow should do the job. . . "because he's so adept at breaking bad news to the President."

"Rostow nervously worked his way into the President's bedroom and then, in a moment of inspiration, got down on his hands and knees and crawled toward the President's bed. When he got there," Buchwald says, "he reached for Mr. Johnson's hand."

"That you, Linda Bird?" the President sleepily inquired.

"No, it's Walt."

"Walt who?"

"Walt Rostow, your White House aide."

"Well, what in tarnation are you doing on your hands and knees at this hour? Eartha Kitt isn't coming to breakfast, is she?"

"No sir, I have something else to tell you."

"What is it?" the President said.

"Do you mind if I get in bed? It's very confidential . . ."

But back to President Roosevelt's bedroom and the gold standard, ad events leading thereto.

March 4, 1933, President Roosevelt closed all banks in the U. S. by invoking war powers granted by Congress in the Trading With the Enemy Act of World War I.

March 9, five days later, Congress passed the Emergency Banking Act which legalized what the President had done, and further provided for control over "all transactions in foreign exchange" and "transfers of credit between, or payments by, banking institutions."

April 5, the President issued an executive order making ownership, possession or use of monetary gold a crime. Citizens were ordered to deliver all gold to their banks.

May 22, the President was authorized to reduce gold in a dollar.

Teachers May Strike

Grossmont District School Tax Vote Turned Down

The Grossmont Union High School District Governing Board said that it will delay calling for a tax-over-ride election until the Fall of 1968, at a special meeting held Feb. 14. Reconsideration of this matter was prompted by the Grossmont Union High School District Teachers Association's strong feelings that this election could and should be held in conjunction with the presidential primaries on June 4, 1968.

In taking the action, the Governing Board went on record as being "in favor of considering a tax-over-ride election in the fall of 1968 reflecting an increase in the tax rate beyond the existing \$1.50 maximum."

Action Brought By Teachers
Their actions brought immediate threats of a strike, teacher sanctions, and an investigation by the National Educational Association.

The board has been told that a strike committee of a teachers union was formed at the Mt. Miguel High School. Representatives of two high school district teachers associations charged that there is a deterioration of morale in the District. Other school officials denied that accusation.

It was the second time in less than two weeks that the trustees refused to call a tax-over-ride vote for the June 4 primary election.

Teachers sanction would have the effect of blackballing the Grossmont District as far as hiring new teachers for the district is concerned.

The teachers association had notified the board before the vote that its executive council would recommend local sanctions against the district and that a National Education Association fact-finding investigation be sought.

Board members told the teachers that they have an obligation to the taxpayers and do not feel that a successful tax-over-ride election could be held in June.

This action headed up the possibility that there will be no sizeable salary increases for teachers during the 1968-69 school year. Tentative budget proposal from District Supt. John T. Warburton calls for

a modest pay raise somewhere between 2.5 and 3 per cent. Warburton had recommended against a tax rate vote until later this year.

Move Is Made To Halt Crime
Assemblyman E. Richard Barnes (R-San Diego) joined Assemblyman Larry E. Townsend (D-Torrance) in introducing an important measure which will strike a blow against the rising crime rate.

This legislation provides that a felon who breaks parole must serve out his sentence. Barnes pointed out that in 1966 — the last year for which complete figures are available — almost half the prisoners who were paroled were returned for parole violations.

Murdered Highway Patrolman
Among those paroled in 1966 was Luis S. Juarez, 37, who was picked up two months later for parole violation. For some reason he was again paroled. He was still on parole when on July 19 of last year he murdered Highway Patrolman Frank Story near El Cajon.

Juarez was convicted of first degree murder and sentenced to life imprisonment. If the violation we are proposing had been in effect then, Patrolman Story would be alive today," Assemblyman Barnes pointed out.

FENCE MENDING — U.S. Representative Lionel Van Deerlin was in the east county last week prior to the start of his campaign for reelection to Congress. Friday, he addressed the Lemon Grove Men's club to an unseasonably large audience. On the basis of information available to Congress, Van Deerlin said, the war in Vietnam is being well-handled by the President. He also backed up the President's actions in the Pueblo matter. He said that laws may have to be passed by Congress to beef up the loyalty oath requirement in sensitive posts.

Loaded Gun Charge Made In Bar Fracas

Police say that the accidental discharging of a gun carried by a Lakeside man may have saved the lives of one or more patrons of the Coral Inn in Lemon Grove.

The man, Theodore Gregory Nelson, 31, of 9388 Los Cocheros, Lakeside, accidentally fired the gun when he was checking it to see that it was working properly. He told police that he was headed back into the Coral Inn to "kill them b-----s". Luckily, a sheriff's patrol car was within minutes of the Coral Inn parking lot at 7346-48 Broadway and deputies apprehended Nelson before he could make good his threat.

Events leading up to misfire were related to police by Nelson.

He said he was battered and bloodied by several patrons in the saloon, some of whom were jacketed motorcycleists, without provocation. He said that he was not only beaten, but he was stomped. He was then thrown bodily from the saloon, he said.

He went to his home and obtained a five-inch, 25 cal. revolver and returned to right the wrong. He stopped first at The Bikini, a neighboring Broadway bar, for "another

beer" before taking on his antagonists.

Nelson said the gun went off as he checked it to make certain it was working. Neighbors reported the gunfire and a cruiser responded almost immediately. He was booked on a charge of possessing a loaded gun.

Police officials said that Coral Inn is the hangout for Iron Horsemen, Hell's Angels, and other outlaw motorcycle groups. Capt. Q. Cash, of the El Cajon Sheriff's station said that the bar is checked regularly for disturbances.

Records show that the management of Coral Inn has complained that police check the bar so often as to suggest "harrassment."

Department records show that several arrests have been made although there is no indication that neighboring residents or passersby have been annoyed or disturbed by members of the motorcycle groups.

Police say they need complaints to drive the "undesirable element" out.

Meanwhile, Nelson forfeited bail of \$125 on the police charge in El Cajon court Thursday in lieu of facing trial.

Camp Trouble Adds 30 Days To Man's Woes

SAN DIEGO (CNA) — Alfred Dale Meyer, 32, formerly of 3168 Florine dr., Lemon Grove, was given 30 extra days in the county jail on Wednesday for participating in a riot at the West Fork Honor Camp on Nov. 21.

Meyer was in the honor camp for violation of the terms of probation which he received in 1966 after pleading guilty to possession of marijuana.

The riot occurred when the camp's lights failed and Meyer and ten other inmates started becoming unruly in the mess hall. They then went outside and started throwing rocks in the darkness.

The probation officer recommended that Meyer be sent to state prison.

He said, "The defendant has a rather aggravated prior criminal record of misdemeanor or offenses involving drunkenness, immoral conduct, failure to provide for minor child and petty thief."

"He has been convicted of fraudulently obtaining a motor vehicle operator's licenses."

Tougher Law For Campus Trespassers

Assemblyman John Stull (R-Leucadia) has announced that he had co-authored a bill that would strengthen the law to remove unwanted trespassers from the campuses of the University of California and the State Colleges.

The legislation provides that a nonstudent who commits a disturbance likely to interfere with peaceful campus activities, or enters a campus for the purpose of creating a disturbance, is guilty of a misdemeanor.

"The present law makes it a misdemeanor 'if it reasonably appears' that a nonstudent is creating a disturbance, or has entered the campus to commit a disturbance, and fails to leave the campus when directed," Assemblyman Stull commented.

After listening to, and studying recent testimony of higher education officials, and especially in view of very recent disturbances, I am convinced that the present law should be strengthened.

University officials have asked for a tougher law to

deal with nonstudents who enter their campuses to disrupt classes and regular college activities."

Students Elect New Body President at Grossmont College

Grossmont College students went to the polls on Wednesday, February 7, to elect a student body president.

In the special election Wyatt W. Hall IV, former student government chief justice, was elected to fill the vacancy created by the resignation of Edward M. Heinz as president of the Associated Students of Grossmont College (ASGC).

Heinz, ASGC president since September, 1967, resigned effective January 12, 1968. In his letter of resignation Heinz ton, Rector of St. John's Episcopal Church, Chula Vista, and the Rev. Richard Nale, Honorary Assistant to the Rector of St. John's, Chula Vista, will also attend.

Warburton Turns In Resignation To Grossmont School District

The resignation of Dr. John T. Warburton as superintendent was received Monday night of the Grossmont Union High School District.

Warburton will return to teaching, consulting and personal business. He is expected to join the faculty at San Diego State in the education department where he may teach administrative methods.

Warburton stated that his resignation is "essentially my reasons for leaving are to be found in my own personal life. These include an unwillingness to continue to face 16-hour days with serious detriment to my family."

The superintendent was holding down the third largest high school district leadership in California for the last four years.

He added that he had assumed the role of superintendent. "Only until such time as unification occurred. This possibility has disappeared and in fact looks as if no positive unification effort will be made until 1972."

His term will end with the district by Aug. 7, the date after the final hearing on the 1968-69 high school district budget.

Warburton who headed up the 17,000 student district was an outspoken advocate of merging elementary school districts into the Grossmont district.

The superintendent who is 44, attended San Diego State before getting his doctorate from the University of California at Los Angeles.

He has been a teacher, vice principal, principal and finally superintendent in the Grossmont School district. He is president of the La Mesa Rotary Club, chairman of a \$175,000 fund raising drive to build an indoor pool at the Heartland Young Men's Christian Association and a member of the San Diego Opera Guild board of directors.

He closed out his remarks by saying, "You may rest assured that I will continue to live in this community and will support, as a citizen, all phases of your program as they are placed before the community."

I could do no less because of my belief in the Grossmont district, its teachers, its students and its staff."

Trustees Bar Commie From Grossmont College Campus

Grossmont Junior College trustees last Tuesday night turned down a request for Communists to speak on campus.

Legal action might be taken against the Grossmont Junior College trustees for voting down the Communist request to speak on campus.

The trustees gave permission for an appearance by a member of the John Birch Society to talk on the campus.

The denial was made for the second time in two months. The Grossmont Jr. College chapter of the San Diego Federation of Teachers is on record pledging a suit against trustees even in the event legal action is not started by the American Liberties Union.

only Communists but Nazis to speak on campus.

Trustee Robert Dryden's motion to bar William Taylor, an admitted Communist, from the campus was approved by a 3-1 vote. It was supported by the board chairman Rexford Hall, Palmer Svalstad and Srydem.

Mrs. Portia Goode voted against the motion. Trustee Georger was absent.

The certainty of legal action against the trustees was pointed out when Harold Hughes, college president, advised caution in drafting the motion to prevent Taylor from speaking.

Dryden said "I see nothing wrong in listening to someone with his beliefs." He also added.

The court action against the trustees may result because

of their refusal to allow not cused the Student Open Forum who had made the request to allow Communists on campus of "stirring up considerable turmoil."

Chuck Dunbar, co-moderator of the organization asked Dryden "Do you really think we're trying to stir up trouble by exercising our constitutional rights?" Dryden replied that constitutional rights were not involved.

Grossmont College students are in favor of the Communists visiting on the campus. Of 5,000 ballots distributed to students 1,745 voted against withdrawal of troops from Vietnam while 732 voted for withdrawal.

The figures did not impress the trustees.

CONRAD LEMON GROVE MORTUARY

ENGAGED — Mr. and Mrs. Rudolph J. Gainok of Tucson, Arizona, announce the engagement of their daughter Pearl Ann to Sgt. Donn L. Badman, son of Mr. and Mrs. Cecil S. Badman of Lemon Grove.

Miss Gainok is a senior at Catalina High School in Tucson. Her fiancé is a graduate of Barstow Union High School, Barstow, Calif. and attended Grossmont College before entering the U.S. Air Force.

He is now stationed at Luke AFB near Phoenix, Ariz. An old-fashioned Hungarian wedding is planned June 8.

Unemployment Hits Eight Year Low

More Californians were working last month than in any previous January, and the unemployment rate moved down to the lowest point of the past 8 years, according to a report issued jointly by the Departments of Industrial Relations and Employment.

At a January record of 7,453,000, total civilian employment topped the year-ago level by 253,000, or 3.5 percent, Albert C. Beeson, Director of Industrial Relations, announced.

The usual post-holiday drop in employment between December and January numbered 149,000 this year, a relatively small decline for the season.

In the job growth from January 1967, all major industries except agriculture gained workers. Leading in size of increase was government, chiefly in the public education segment. Services and manufacturing were next in line.

Construction employment continued the gradual emergence from its long-term downturn by recording 15,000 more workers this January than 12 months earlier — the third month that employment in the industry has remained above the year-ago level.

Between December and January, most industries joined in the wintertime lull in total employment. By far the largest decline occurred in trade, as stores cut temporary holiday staffs. Christmas mail handlers accounted for most of the reduction in government em-

ployment.

Manufacturing lost workers over the month both from seasonal causes and from the trade dispute affecting printing-publishing in California's two major cities. The aerospace manufacturing complex remained virtually unchanged from the December total, the first occasion in the past year that this group has not expanded.

Unemployment totaled 410,000 in January, up less than seasonally from the month-ago figure of 376,000 and 11,000 below that of January last year. The civilian labor force, consisting of the employed and unemployed available for work and seeking work, was 7,863,000 in January, up from 7,621,000 in January 1967.

School Testing Will Be Subject Of Committee

The Assembly Education Committee has appointed an advisory committee to recommend a method of testing and measuring the ability of individual schools and school districts to educate children.

In a letter to William P. Baker, chairman of the California Association of School Administrators and California Association of Secondary School Administrators Joint Committee on Tests and Testing, Assemblyman Leroy F. Greene stressed, "Test scores or test results would in no way relate to the student's grade but would be used only to measure the relative ability of the school, the district and the state as measured by the specific test and to measure progress with the passage of time."

All school districts have equal access to basic textbooks and similarly credentialed teachers yet because of various factors there is indication the product is not constant.

"Scouting Is the Answer" Dr. Webster Tells Kiwanians

Dr. Tom Webster, Spring Valley physician and past president of the Spring Valley Kiwanis Club told S.V. Kiwanians that "Scouting is the answer to helping boys."

The guest speaker at the Feb. 14 breakfast-meeting pointed out the need of adult help in scouting. Dr. Webster is scoutmaster for Boy Scout Troop 319 of La Mesa.

He stated that one in every 100 boys who register in Scouting, become an Eagle Scout. He said the adult leaders have to get behind these boys before they reach the age of 14, in order to impress them the importance of advancement, and the importance of earning their merit badges.

Dr. Webster said some of the outdoor activities the boys are taught, are camping, sanitation, first aid, swimming, life saving and hiking. These are similar to basic training in the Army, the doctor pointed out.

Trying to develop character in a boy is an important undertaking, Dr. Webster stressed. He said it is very difficult for a 14-year old boy to phone a perfect stranger and ask him if he is a merit badge counselor. This is what happens in many instances. There are counselors for most all trades and vocations.

Uniforms make all boys look alike, regardless of their family financial status, the doctor pointed out. Speaking on hikes, he said the new boys are started out on fairly long hikes, maybe about five miles.

Good Physical Condition

Most of the boys are in good physical condition, he said, and adults are a big help with the youngsters, making a combination of fun and study.

Dr. Webster said getting the kids out requires putting a bit of "spice" in their activities. He said on the 30-mile hikes the Scouts take all the necessities on their back.

This includes enough for an overnight campout. The doctor said he has had as many as 35 boys on a hike. And, he commented, most all the boys are repeaters. And he further commented, there is an art in the proper way to carry a pack.

On these hikes the boys learn how to collect and start a fire with wet wood and how to sleep in their boots and other clothing during cold weather.

Learn By Mistakes

"Boys learn by mistakes," Dr. Webster pointed out. He said the solution to many a problem is working together as a team. He said this develops leadership and responsibility.

The doctor pointed out that there are 28,000 boys in San Diego County who are part of the Scouting program, and many, many more than that who are not in the program. He said he is convinced the

Head Grid Coaches Are Named For Henry, Madison H.S.

Two veterans of the City Schools football wars have been named to their first varsity head coaching jobs, one at Madison High in Claremont and the other at the new Henry High in San Carlos.

Jack Menotti, 35, assistant at Kearny High since 1962, will take over the Madison reins from George Hoagland next fall.

Russ Leslie, 38, an assistant at Hoover High since 1959, will direct the Henry grid fortunes when the school opens for the first time in September. Both appointments were announced by Dr. Evan Shaffer, secondary schools director.

Hoagland, Madison's head coach for the six years since the school opened, resigned the post to accept assignment as student body advisor and director of student activities.

Menotti was graduated from Cal State Los Angeles in 1958 after playing as a lineman on offense and linebacker on defense for the Diablos. Earlier, he attended Loyola of Los Angeles and the College of Idaho. He expects to complete work

on a master's degree this summer at Northern Arizona University.

Menotti went to high school in Santa Monica and returned to that city for his first coaching job as an assistant at St. Monica High. He has been at Kearny since moving to San Diego in 1962.

Madison High was winless last season so Menotti has his work cut out for him. An equally tough challenge, that of organizing a team from scratch, awaits Leslie at Henry.

Leslie calls his new job "a great opportunity," but admits, "we'll have to go mainly on spirit the first couple of years." Henry will have no seniors next year. The new coach will have one advantage — familiarity with some of his players since many will come from Hoover.

A native of Florida where he was an all-state football player in high school, Leslie played end at Furman University and was graduated from Western Kentucky. He obtained a master's degree while coaching at the University of Virginia.

After teaching and coaching in Virginia, Leslie moved to California in 1957 and spent two years at Hayward High School. He then moved to San Diego to become an assistant coach at Hoover.

Working in the City Schools is a family affair for Leslie's family. His brother, Gary, is a family life education teacher in the health services division. Gary Leslie's wife, Margaret, is a physical education teacher at Taft Junior High. And Russ Leslie's wife, Innis, is a substitute teacher.

The families of both new coaches include some future football prospects. The Leslie's have four children ranging in age from 12 to 16, while Menotti and his wife Gail have five children from age one to seven.

Bob Dent To Seek Re-election

Board of Supervisors' Vice Chairman, Robert C. Dent, this week announced his intention to seek re-election as a member of the San Diego County Board of Supervisors, representing the Third Supervisorial District.

Dent, who is completing his third term this year has three times served as chairman of the Board of Supervisors. Dent pointed out the importance of County Government and discussed his past public service, including two terms as a member of the San Diego Unified School District Board.

"I like the give and take of County elective office," Dent said. "Local officials are closest to the people, we come to know their most basic needs and concerns." "Finding ways of meeting these needs is a tremendous challenge."

Dent, who is best known for his interest in efficient welfare administration, listed some of those areas in which he has been most effective and stated that "I feel my efforts during the last eleven years have helped hold down the cost of County Government."

Dent's interest in welfare economy has involved him in efforts locally and state-wide to reduce the cost of spending in this area. He points out that of the 58 California Counties, San Diego ranks in the lower five in welfare expenditures per capita.

Social Security News

The Lemon Grove Review presents this question and answer column about the Social Security Program as a public service to our readers. The questions are those most frequently asked about Social Security. The answers are provided by Sumio Ota, El Cajon Social Security District Manager.

SOCIAL SECURITY
Q. I have itemized, receipted bills for services under Medicare for September, 1966. I have not yet filed a claim for reimbursement. Is it to late?

A. No, but claims for medical insurance for services furnished in July, August or September, 1966, must be filed by March 31, 1968. Claims for services between October 1, 1966 through December 30, 1967 must be filed by December 31, 1968. Under the new law all you need is an itemized bill, whether paid or not, to submit with your claims.

Q. My wife died 3 years ago leaving me with 2 small children. I received a check to help pay the funeral expenses, but was told nothing could be paid to the children since my wife had not worked in the 3 years before her death. Has the new law changed this?

A. The new law removes the requirement that a woman must have worked under Social Security 1½ years in the 3 years before her death, in order for her children to receive benefits. You should contact your social security office as soon as possible.

Q. Three years ago I filed for social security disability benefits and was denied, because I hadn't worked long enough. I am a widow, 50 years old. Can I qualify under the 1967 amendments?

A. The new law provides that a widow may be eligible for monthly benefits at age 50 if she is "severely disabled" and her husband was insured under social security.

If you have further questions regarding changes in the Social Security Law, write or contact the Social Security District Office, 1075 East Main st., El Cajon, California 92021. The office is open from 8:30 a.m. until 4:30 p.m. Monday through Friday and until 7:30 p.m. on Wednesdays. The phone number is 442-0851.

Kuchel Re-election Committee Set Up

Many other members of the Executive Committee were active in the 1966 Reagan effort as well as earlier campaigns on behalf of California's senior Senator.

Senator Kuchel, who recently returned to Washington, D.C. following the announcement of his re-election bid, applauded the membership of the committee.

"I have a keen sense of pride and gratitude and that Republican men and women of such caliber have taken prominent roles in my campaign. Their help gives me increased confidence that our fight will be the strongest possible," Senator Kuchel said.

Move To Start New Brownie Troop Begins

For some time now District No. 10 from the Lemon Grove Neighborhood has been attempting to start a new troop. The second and third graders of Scouts should be included in the same Brownie troop.

Due to the time difference in dismissal and because of the danger involved in crossing Massachusetts ave. for students at the Vista La Mesa School for these small tykes it has been impossible to have both grades included in the same Brownie troop. And there have been complaints.

Mrs. J. F. Roberts, publicity representative, has been studying the problem and feels the only solution is to form a new Brownie troop. In this way both grades will be included in each troop, and each girl will belong to the troop on the side of Massachusetts in which she resides.

There is one small problem. Help is needed. Volunteers for leaders and assistant leaders. If you have no free time, make some. It is a good way to further wholesome interests for our young girls.

Please call Mrs. J. F. Roberts—463-8753 at her home for further information on what you can do to help. She is waiting to answer your questions and encourage your help.

Ear-Eye Defects

Check for Kiddies

Pre-school parents are urged to take advantage of an annual service performed by the Mt. Helix PTA Council for children aged 3-5.

Its target is to locate youngsters with eye and hearing deficiencies as early as possible. Audio-Visual Screening will be done at the Girls' Cottage, 8440 University ave., La Mesa, from 9:30 a.m. to 11:30 a.m. on March 5, 7, 12, and 14. Any of these dates will provide the same facilities. No charge is made.

WHAT'S DOING?

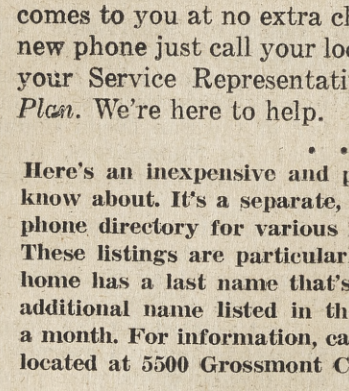

Did you know that the average family in the United States moves once every five years?

When your moving day comes you can make sure — with just one call — that your phone service is the last thing out of your old home and the first thing into your new home. It doesn't matter whether you're moving to a nearby town or across the country — you can take advantage of this service anywhere in the nationwide Bell System.

We call it the *Easy Move Plan* and this service comes to you at no extra charge. To arrange for your new phone just call your local Business Office and ask your Service Representative about the *Easy Move Plan*. We're here to help.

Here's an inexpensive and practical item you'll want to know about. It's a separate, personal listing in the telephone directory for various members of your household. These listings are particularly helpful if anyone in your home has a last name that's different from yours. Each additional name listed in the directory is only 35 cents a month. For information, call your local Business Office, located at 5500 Grossmont Center Drive, La Mesa.

It seems the man of the house couldn't remember the number he wanted to call. So, receiver in hand, he toyed absently with the telephone dial while looking through the phone book. Suddenly his face turned beet-red. His wife noticed and asked anxiously, "Is something the matter?"

"No," he said, grinning sheepishly. "The Operator just asked me if my mother knew I was playing with the phone."

How do you own a stack of Savings Bonds when you're older?

Start young.

Start small, if you want to, but start steady. The important thing is to have a regular program of setting something aside every payday.

What's most important: it's never too early to begin.

You say that takes more will power than you can muster up on a regular basis? Then use the easy, automatic way: join the Payroll Savings Plan where you work.

This way your employer saves your money for you—puts it toward the purchase of a U. S. Savings Bond.

Pretty soon you won't even miss the money. In fact, you'll probably forget how fast your savings are growing. Here's a for-instance: just \$4.33 a week adds up to the \$18.75 you need to buy a \$25 Bond every month. That's \$300, maturity value, a year. Not bad for a former spend-thrift! What's more, those few dollars you're tucking away to grow will be working all the time to help keep our country strong and free.

So start now, start young, building up the savings that count so much later on. Join the Payroll Savings Plan before next payday.
